A black and white illustration of a smartphone, likely an iPhone, shown from the front. The screen is dark and mostly blank, with a small notch at the top center containing three small circular sensors. The phone has a thin bezel and rounded corners.

Figure 1-1-1 shows two screenshots from the 'Campus' app. The left screenshot displays the app's home screen, which includes a '校園首頁' (Campus Home) card. The right screenshot shows the '校園' (Campus) page, which features a QR code and a list of instructions for using the QR code to access campus services.
